The Security Challenges of Construction Sites

- **High-Value Equipment:** Expensive machinery and tools are attractive targets for theft and vandalism.
- **Open Perimeter:** Construction sites often lack physical barriers, making them vulnerable to unauthorized access.
- **Worker Safety:** Ensuring the safety of workers and preventing accidents is a top priority.

How SCT+ Addresses Construction Site Needs

SCT+ provides intelligent surveillance and rugged hardware to address common security challenges faced by construction sites.

Advanced Asset Protection

Monitor equipment and materials with precision using AI-enhanced tracking.

24/7 Remote Monitoring

Stay informed and in control, no matter where you are with smart alerts.

Rugged Mobile Hardware

Offering regular maintenance services, including cleaning and system monitoring
