The Security Challenges of RV Parks

- **Visitor Safety:** Ensuring the safety of park guests and their property is essential.
- **Unauthorized Access:** Preventing unauthorized individuals from entering the park.
- **Vandalism and Theft:** Protecting visitors' property from theft and vandalism.

How SCT+ Addresses RV Park Security Needs

SCT+ combines AI-powered software and rugged hardware to enhance security at RV parks.

Entry and Exit Monitoring

Track movement in and out of the park to prevent unauthorized access.

Perimeter Surveillance

Monitor the park's boundaries to deter intruders.

Visitor Area Monitoring

Ensure the safety of common areas and facilities.
