## The Security Challenges of Shopping Malls

- **High Foot Traffic:** Malls are high-traffic areas, which makes monitoring a challenge.
- **Theft and Vandalism:** Stores in malls are vulnerable to shoplifting and vandalism.
- **Safety Incidents:** Ensuring the safety of visitors and staff during emergencies or incidents is critical.

## How SCT+ Addresses Shopping Mall Security Needs

SCT+ combines AI technology and robust hardware to keep shopping malls secure.

### Full Coverage for Retail Environments

Keep parking areas safe with wide-angle cameras and smart alerts.

### Entrance and Exit Monitoring

Track everyone entering and leaving the mall.

### Storefront Surveillance

Monitor individual stores for suspicious activity.
