## The Security Challenges of Transportation Facilities

- **High Foot Traffic:** Transportation hubs are busy places, making monitoring challenging.
- **Unauthorized Access:** Ensuring that restricted areas are secured is critical.
- **Safety Incidents:** Managing potential safety incidents like theft, vandalism, or accidents.

## How SCT+ Addresses Transportation Security Needs

SCT+ combines AI-powered software and reliable hardware to meet the unique needs of transportation facilities.

### Entry and Exit Monitoring

Keep track of everyone entering and leaving the facility.

### Real-Time Alerts

Receive instant notifications for any suspicious activities or security breaches.

### Durable, Portable Security Units

Deploy our rugged, solar-powered units for maximum coverage without the need for permanent installations.
